## Prestige Roof Ltd Environmental Management Statement Management of Environmental Issues

Prestige Roof Ltd is committed to conducting its operations in a responsible manner that minimises environmental impact and promotes sustainable working practices. We recognise our responsibility to protect the environment and continually seek ways to improve our environmental performance.

### Our Environmental Commitments

Prestige Roof Ltd will:

- Comply with all relevant environmental legislation, regulations, and industry best practices.
- Prevent pollution wherever possible and minimise the environmental impact of our activities.
- Promote responsible waste management through the reduction, reuse, recycling, and proper disposal of materials.
- Ensure all waste is transported and disposed of by licensed waste carriers and at authorised facilities.
- Reduce unnecessary consumption of materials, fuel, water, and energy across our operations.
- Encourage the use of environmentally responsible products and materials where practical and commercially viable.
- Maintain vehicles and equipment to maximise efficiency and minimise emissions.
- Protect local wildlife, habitats, watercourses, and surrounding environments when undertaking roofing and construction works.
- Prevent contamination from fuels, oils, chemicals, and other potentially hazardous substances through proper storage and handling procedures.
- Consider environmental factors when planning projects and carrying out site activities.

## Waste Management

Prestige Roof Ltd is committed to:

- Segregating waste materials where practical.
- Recycling suitable materials, including metal, timber, plastics, cardboard, and packaging.
- Ensuring roofing waste, insulation materials, and general construction debris are disposed of responsibly.
- Keeping accurate records of waste transfer documentation where required.

## Site Environmental Controls

When working on site, our teams will:

- Keep work areas clean and tidy.
- Prevent debris from entering drains, watercourses, or neighbouring properties.
- Control dust generation through appropriate working methods.
- Minimise noise disturbance to customers, neighbours, and the wider community.
- Ensure spillages are cleaned immediately and reported where necessary.
- Protect trees, landscaping, and property surrounding the work area.

## Training and Awareness

Prestige Roof Ltd will ensure that employees and subcontractors:

- Understand their environmental responsibilities.
- Follow company environmental procedures.
- Report environmental concerns, incidents, or near misses promptly.
- Contribute to the continuous improvement of environmental performance.

## Continuous Improvement

The company regularly reviews its environmental performance and working practices to identify opportunities for improvement. We remain committed to reducing our environmental footprint while delivering high-quality roofing services to our customers.
